

G6 Market (An Online Shopping Mobile Application)

PART I. Consent Form

This study is about the usability evaluation of the G6 Market system, a mobile online shopping app prototype developed to improve the online shopping experience. You are invited to participate because your feedback is very important in checking if the system is user-friendly and easy to use. The goal of this study is to evaluate how well the prototype works and find ways to improve it based on the user experience, specifically measuring its ease of use, design and appearance, navigation, and overall user experience.

If you agree to participate, you will be asked to (1) briefly review and sign this consent form, (2) interact with the G6 Market mobile app prototype by exploring its features, (3) complete the System Usability Scale (SUS) questionnaire based on your experience, and (4) optionally answer open-ended feedback questions. The whole process will take about 10 to 15 minutes only.

Your participation in this study is voluntary. This means you are free to participate or not, and you can also stop at any time without any problem. All the information you provided will be kept private and confidential. Your identity will not be shown or shared with others, and your answers will only be used for academic purposes and system improvement. There will be no risk in participating in our survey except for the small amount of time you will spend. Your feedback will help us to improve the G6 Market system and make it more useful for future users.

MICHAEL B. AMATA

Course Instructor, Computational Sciences Department

By signing below, you confirm that you understand the information given and that you voluntarily agree to participate in this study.

Name:_____

Signature:_____

Date:_____

Group Leader: Rolan C. Pasturan

Email: pasturanron26@gmail.com

PART II. Demographic Profile

Age: _____

Gender: ☐ Male ☐ Female

Course /Program: _____

Year level: _____

Experience with similar system: ☐ Yes ☐ No

Frequency of Technology use: ☐ Daily ☐ Weekly ☐ Never

PART III. SYSTEM USABILITY SCALE (SUS)

The following questionnaire measures the usability of the G6 Market shopping app prototype based on your experience. Please indicate your level of agreement using the scale below.

Instructions: Please read each question and check (✓) one number that shows your level of agreement based on your experience with the system G6 Market.

1 = Strongly Disagree, 2 = Disagree, 3 = Neutral, 4 = Agree, 5 = Strongly Agree

	Questions	1 Strongly Disagree	2 Disagree	3 Neutral	4 Agree	5 Strongly Agree
1.	I think that I would like to use this system frequently.					
2.	I found the system unnecessarily complex.					

Partido State University
College of Engineering and Computational Sciences
Computational Sciences Department

3.	I thought the system was easy to use.					
4.	I think that I would need the support of a technical person to use this system.					
5.	I found the various functions in this system were well integrated.					
6.	I thought there was too much inconsistency in this system.					
7.	I would imagine that most people would learn to use this system very quickly.					
8.	I found the system very cumbersome to use.					
9.	I felt very confident using the system.					
10.	I needed to learn a lot of things before I could get going with this system.					

PART IV. OPEN-ENDED QUESTIONS

11. What did you like about the system?

12. What improvements can you suggest?
